

Great and Small

Measurement

Instructions:

Help your child make measurement comparisons! Read the directions aloud for each question and invite your child to circle the answer.

Helpful Hint:

Encourage your child to support his or her answers by asking questions like, "Why do you think that is the heaviest/lightest object?" and "How can you show that that is the longest/shortest object?"

5. Circle

1. Circle the heaviest object.

whale clam dolphin

2. Circle the lightest object.

mouse hippo ant

3. Circle the longest object.

nail brick hammer

4. Circle the shortest object.

watermelon ant tomato
