

# Synonym Dominoes

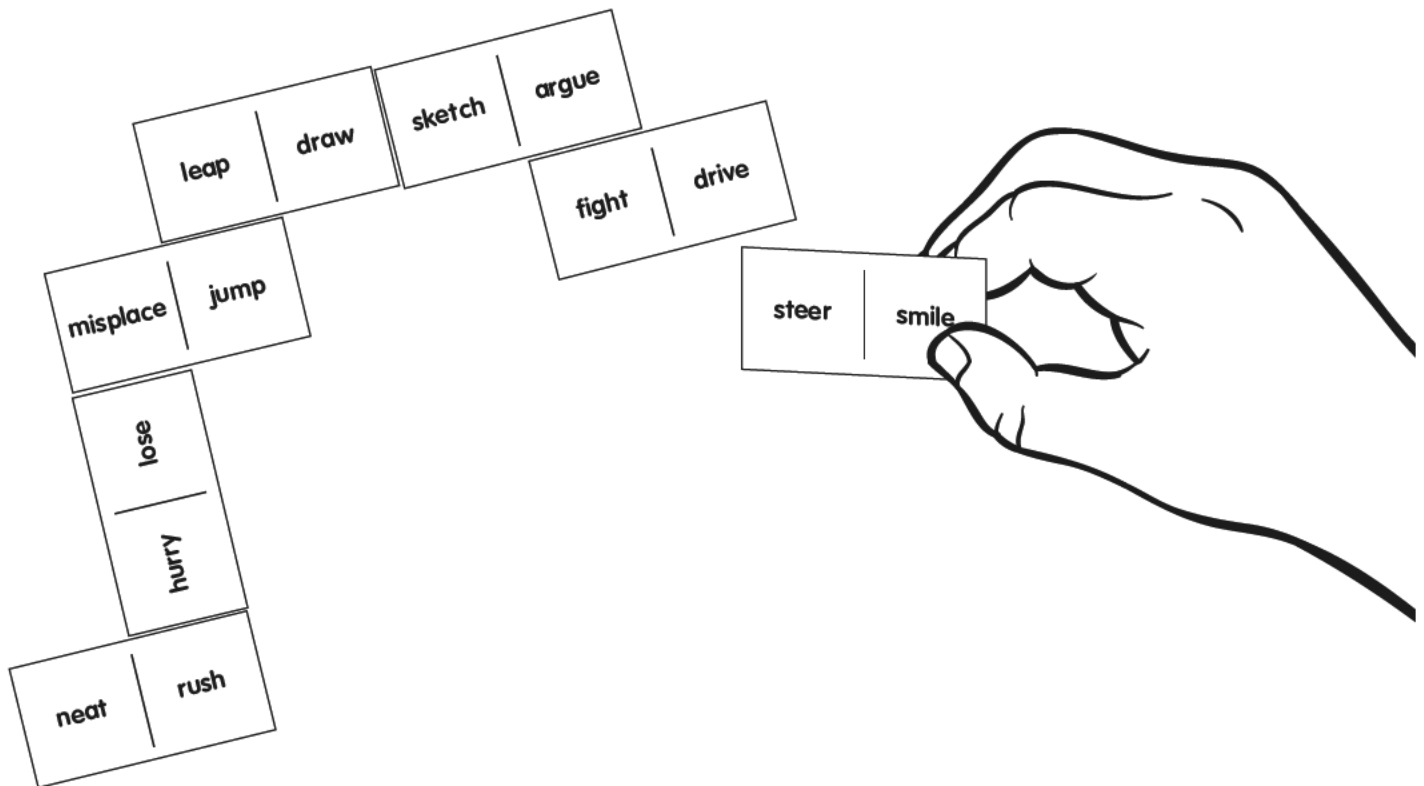

## Synonyms

### Instructions:

Have your child cut out the synonym dominoes along the dotted lines and place them faceup on a table. Invite your child to play a game of dominoes by matching up synonyms. He or she should simply select a domino, find another domino that features a synonym for one of the words, and connect the dominoes by touching the synonyms together. Keep playing until your child has matched up all 20 synonym pairs—and created a continuous chain of all 21 dominoes!

### Helpful Hint:

Explain to your child that synonyms are words that mean the same thing or have a similar meaning. For example, "little," "tiny," and "miniature" are all synonyms for "small." If your child struggles, go over the words on the dominoes and talk about what each one means.
