

Mix-Up Magic

Irregularly Spelled Words/Sight-Words

Instructions:

Help your child cut out the word pieces along the dotted lines. Place the word pieces faceup on a flat surface. Prompt your child to read the first sentence on the activity sheet and find the misspelled word. Once he or she has found the misspelled word, encourage him or her to find the word piece with the correct spelling of the word and place it on top of the misspelled word on the activity sheet. Encourage your child to continue in this way until he or she has completed both of the activity sheets!

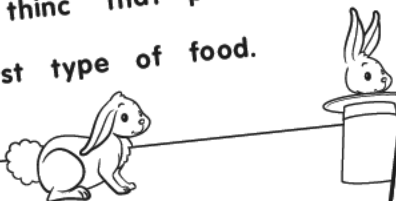

Helpful Hint:

Remind your child to read each sentence aloud slowly. Encourage your child to point to each word while determining if the word is spelled correctly.
