

HIGHER EDUCATION

LEARNING ENVIRONMENTS

Solutions for Higher Education

Provide students and educators with durable, sophisticated and comfortable furniture that supports the recruitment and retention goals of community colleges, universities and tech schools.

Purpose-Driven Design:
Our three-part approach to creating dynamic learning spaces

1 Furniture Design

Designed entirely in-house by expert educators, industrial designers and engineers, our furniture is built for today's learning spaces—meeting the real-life needs of students and instructors.

2 Instructional Design

Our design team works to understand your specific goals and practices, while following overarching principles that positively impact learning outcomes, such as student choice, collaboration and a sense of belonging.

3 Space Design

We pay particular attention to how furniture functions within an environment, focusing on essentials like freedom of movement, student comfort and smooth transitions between activities.
